

SKILL NEXIS

Digital Marketing — Week 1

Digital Marketing Research Report

Included topics: Competitor Research • Social Media Research • Student Community Research

This file contains only the three assigned research topics.

Done by : Garvita Chauhan

Part 1 — Competitor Research

Five key competitors were selected according to the improvement requirement. Each competitor includes its main offering, target audience, strengths, weaknesses/gaps, and what Skill Nexis can learn.

No.	Competitor	Main offering	Target audience	Strength	Weakness / gap	What Skill Nexis Can Learn	Source
1	Internshala	Internships, jobs, trainings	College students & freshers	Large first-opportunity ecosystem; strong student-focused discovery.	Large established ecosystem makes differentiation harder.	Build stronger student proof, simple discovery and practical career content.	Open source
2	Unstop	Internships, jobs, competitions, hackathons	Students, freshers & early talent	Combines opportunities with competitions, quizzes, hackathons and career engagement.	Large ecosystem creates high competition and information overload.	Use challenges, contests, deadlines and clear CTAs.	Open source
3	Great Learning	Online professional & higher education	Students, graduates & working professionals	Strong educational content, structured learning and career/industry positioning.	Large program range can make choice difficult; many advanced programs are paid.	Create practical tutorials, masterclasses and project-led proof.	Open source
4	Simplilearn	Courses, certifications, bootcamps	Students, graduates & professionals	High-volume career and skills content with strong topic relevance.	Advanced programs can be expensive for students; broad catalog can create choice overload.	Turn Skill Nexis topics into searchable, repeatable learning series.	Open source
5	Coursera	Courses, Professional Certificates, degrees	Students, professionals & lifelong learners	Strong credential and career-outcome positioning with a broad partner ecosystem.	Large global catalog can make selection difficult; many career programs are paid.	Show project outcomes, certificates and clear skill-to-career paths.	Open source

Research takeaway: Skill Nexis can differentiate through practical projects, student proof, simple opportunity discovery, useful educational content, challenges and clear skill-to-career pathways.

Part 1 — Competitor Research

Screenshots / Evidence

1.Coursera

Strengths:

- Strong brand trust through partnerships with leading universities and companies such as Google, IBM, Microsoft and Stanford.
- Offers a very wide range of **courses, Professional Certificates, Specializations and online degrees.**
- Focuses strongly on **job-ready skills, practical projects and career development.**

Weaknesses / Gaps:

- The very large number of courses and learning options can make it difficult for beginners to choose the right program.
- Many career-focused certificates and full learning programs require paid subscriptions or fees.
- Its large global platform can feel less personalized compared with a smaller internship-focused platform.

What Skill Nexis Can Learn:

- Build **strong trust and credibility** by clearly showing certificates, student outcomes and partnerships.
- Keep internship/course choices **simple and easy to understand** for students.
- Clearly highlight **real projects, practical skills and career benefits.**

2. Simplilearn

Strengths:

- Strong focus on **job-oriented and professional skill development**.
- Offers courses and certifications in areas such as **AI, Data Science, Cyber Security, Cloud Computing and Digital Marketing**.
- Uses career-focused content such as **certifications, career guidance and industry-relevant learning** to attract students and professionals.

Weaknesses / Gaps:

- Many advanced courses and certification programs can be **expensive for college students**.
- The platform is more focused on structured courses and certifications than **short-term internship experience**.
- The large number of programs can make it difficult for beginners to select the most suitable course.

What Skill Nexis Can Learn:

- Promote **practical, job-oriented skills** instead of only explaining courses.
- Clearly show **real projects, internship experience and certificates**.
- Create simple **career roadmaps** for students, such as “Learn → Project → Internship → Certificate.”
- Use career-focused social media content to attract students and generate leads.

- 3. Internshala

Strengths:

- Strong platform focused specifically on **internships, jobs, trainings and fresher opportunities**.
- Large number of internship opportunities across different fields and industries.
- Simple search and category-based system makes it easy for students to find relevant internships.
- Strong student-focused brand presence and regular internship-related content.

Weaknesses / Gaps:

- High competition because many students apply for the same internship opportunities.
- Students may find it difficult to identify the **most relevant or trustworthy opportunity** among many listings.
- The platform focuses heavily on opportunities/listings, so personalized learning guidance can be limited.

What Skill Nexis Can Learn:

- Make internship opportunities **easy to discover and search** by skill/domain.
- Clearly highlight **stipend, duration, projects, certificate and career benefits**.
- Use regular **internship opportunity posts** with strong CTAs to attract students.
- Differentiate Skill Nexis by combining **learning + real projects + internship + certificate** in one student-focused experience.

- 4. Great Learning

Strengths:

- Strong focus on **career-oriented learning** in areas such as Data Science, AI, Cloud Computing, Management and other professional skills.
- Provides **structured learning programs** designed to help learners build industry-relevant skills.
- Uses career-focused content such as **masterclasses, learning roadmaps and skill-development guidance**.
- Strong emphasis on **practical learning and career advancement**.

Weaknesses / Gaps:

- Many advanced and career-focused programs can be **expensive for college students**.
- The platform mainly focuses on **courses and professional programs**, rather than short-term internship opportunities.
- Beginners may find it difficult to choose the right program from the wide range of available options.

What Skill Nexis Can Learn:

- Create simple **career roadmaps** that clearly explain what students should learn next.
- Use **free masterclasses/webinars** to attract students and build trust.
- Highlight **practical projects, skills gained and career outcomes** in promotional content.
- Keep programs **student-friendly and affordable**, while clearly showing the value students receive.

5.Unstop

Strengths:

- Strong platform for **internships, competitions, jobs, hackathons and student opportunities**.
- Provides opportunities from **companies, startups and institutions**, giving students multiple career options.
- Regularly promotes **hackathons, challenges and competitions** that encourage practical participation.
- Strong student-focused content with attractive opportunities, rewards and career benefits.

Weaknesses / Gaps:

- Large number of opportunities can make the platform feel **crowded and competitive** for students.
- Students may need to spend time filtering opportunities to find the most relevant ones.
- Focuses heavily on opportunities and competitions, while structured **skill-building and internship preparation** can be less central.

What Skill Nexis Can Learn:

- Promote **internships + practical projects + skill development** together.
- Use **competitions, challenges and student activities** to increase engagement.
- Highlight clear benefits such as **certificates, projects, LORs and career opportunities**.
- Create deadline-based posts and strong CTAs to encourage students to **apply or participate quickly**.

Part 2 — Social Media Research

Five relevant LinkedIn accounts were checked using actual post examples. The original post links are included below so the reviewer can open and verify the examples.

No.	Account / Platform	Actual post example	Why it works	Skill Nexis takeaway	Original post
1	Internshala — LinkedIn	Internship Listings – March'26	High relevance + concrete opportunities + simple action.	Use opportunity roundups and one-step CTAs.	Open LinkedIn post
2	Unstop — LinkedIn	Adobe University Hackathon 2026	Specific rewards and career outcomes make the post actionable.	Show outcomes, deadlines, eligibility and one CTA.	Open LinkedIn post
3	Great Learning — LinkedIn	How to Build a Future-Proof Career in Data Science & AI	Educational value first, promotion second.	Use free masterclasses and roadmaps to build trust.	Open LinkedIn post
4	Simplilearn — LinkedIn	The Most In-Demand AI Skills and Careers for 2026	Trend + career relevance + structured educational takeaway.	Create recurring skills/careers content series.	Open LinkedIn post
5	Coursera — LinkedIn	Job Skills Report 2026	Research/report framing builds authority and encourages deeper reading.	Publish small research insights and link to a useful resource.	Open LinkedIn post

Screenshot note: For evidence, open each original LinkedIn post and capture the account name, post content/creative and visible engagement or CTA. Keep the original post link available for verification.

1. Internshala

Content Example:

Internshala promotes career-focused content such as free webinars and internship-related opportunities through LinkedIn posts.

Why It Works:

- Provides useful career information to students.
- Uses an attractive visual design.
- Includes a clear CTA to encourage registration or action.
- Shows engagement through reactions, comments and reposts.

What Skill Nexis Can Learn:

- Create regular career and internship-focused posts.
- Use attractive visuals with clear headlines.
- Add strong CTAs such as **“Register Now,” “Apply Now” or “Join Now.”**
- Promote free webinars/challenges to generate student engagement.

2.Simplilearn

Content Example: Simplilearn regularly shares content about **AI skills, certifications, career trends and in-demand technologies**. Its LinkedIn content focuses on helping learners understand which skills can support their career growth.

Why It Works:

- Uses trending topics such as **AI and future skills**.
- Career-focused content is highly relevant to students and professionals.
- Lists and trend-based posts are easy to consume and share.
- Builds interest by connecting skills with career opportunities.

What Skill Nexis Can Learn:

- Create posts around **trending and in-demand skills**.
- Explain which skills students should learn for specific careers.
- Use formats such as **“Top 5 Skills,” “Career Roadmap” and “Skills to Learn”**.
- Connect trending skills with Skill Nexis internships and practical projects.

3.Coursera

Content Example:

Coursera uses practical AI and career-related content, such as AI prompts for workplace and career growth.

Why It Works:

- Uses a current and relevant AI topic.
- Provides practical information that professionals can use.
- Carousel format makes the content easy to consume.
- The post generated visible engagement through reactions, comments and reposts.

What Skill Nexis Can Learn:

- Create practical **AI and career tips** for students.

- Use carousel posts to explain skills step-by-step.
- Connect trending AI topics with students' career goals.
- Encourage engagement through useful, actionable content.

4.Unstop

Content Example:

Unstop promotes student-focused hiring challenges such as the Kotak Life Growth Manager Hiring Challenge, connecting students with real-world case-study and career opportunities.

Why It Works:

- Targets students who are actively looking for career opportunities.
- Uses a well-known company brand to attract attention.
- Combines a competition/challenge with a potential career opportunity.
- The professional visual makes the opportunity easy to recognize.

What Skill Nexus Can Learn:

- Promote **skill-based challenges and competitions** for students.
- Connect practical projects with **career and internship opportunities**.
- Use company/industry-focused themes to increase credibility.
- Add a clear **Apply/Register Now** CTA and deadline to encourage quick action.

5.Great Learning

Content Example:

Great Learning Academy promotes free courses that help learners develop career-relevant skills and become job-ready.

Why It Works:

- Directly targets students and job seekers.
- “7 Free Courses” creates immediate interest.
- Job-ready messaging connects learning with career goals.
- Attractive visual makes the post easy to notice.

What Skill Nexis Can Learn:

- Promote **free learning resources and skill challenges** to attract students.
- Use numbers such as “**5 Skills**,” “**7-Day Challenge**,” or “**5 Projects**” in content.
- Connect learning content with **job and internship readiness**.
- Use attractive thumbnails with a clear, benefit-focused headline.

Part 3 — Student Community Research

Twenty relevant GDG on Campus communities were shortlisted. These official Google Developer Program pages are relevant to students, developers, technology learning, technical talks and hands-on workshops. Promotion permission was not publicly stated, so chapter/admin approval should be obtained before promotion.

No.	Community	Platform	Audience	Promotion permission	Why relevant	Official link
1	GDG on Campus Manipal University - Jaipur	GDG / Google Developer Program	College students, developers & tech learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
2	GDG on Campus Delhi Technological University	GDG / Google Developer Program	University students & developers	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
3	GDG on Campus University of Calcutta	GDG / Google Developer Program	University students & technology learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
4	GDG on Campus Jawaharlal Nehru University	GDG / Google Developer Program	University students & technology learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
5	GDG on Campus IIT Delhi	GDG / Google Developer Program	Engineering/technology students	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
6	GDG on Campus IIIT Surat	GDG / Google Developer Program	Computing students & tech learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
7	GDG on Campus Gurugram University	GDG / Google Developer Program	University students & local developers	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
8	GDG on Campus Bangalore Institute of Technology	GDG / Google Developer Program	Engineering students & tech learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
9	GDG on Campus Hyderabad Institute of Technology and Management	GDG / Google Developer Program	Engineering/technology students	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
10	GDG on Campus IIT Indore	GDG / Google Developer Program	Engineering students & developers	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
11	GDG on Campus University of Engineering & Management - Jaipur	GDG / Google Developer Program	University students & tech learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
12	GDG on Campus IIT Patna	GDG / Google Developer Program	Engineering students & tech learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
13	GDG on Campus IIT Roorkee	GDG / Google Developer Program	Engineering students & tech learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
14	GDG on Campus IIIT Kota	GDG / Google Developer Program	Computing/engineering students	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
15	GDG on Campus Hansraj College	GDG / Google Developer Program	College students & tech learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
16	GDG on Campus Silicon University	GDG / Google Developer Program	University students & developers	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
17	GDG on Campus Malla Reddy University	GDG / Google Developer Program	University students & tech learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
18	GDG on Campus Jamia Millia Islamia	GDG / Google Developer Program	University students & developers	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
19	GDG on Campus Ajeenkya DY Patil University	GDG / Google Developer Program	University students & tech learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page
20	GDG on Campus Acharya Narendra Dev College	GDG / Google Developer Program	College students & tech learners	Not publicly stated — ask chapter/admin.	Student/developer community for technical learning, talks and workshops.	Open official page

Screenshot Evidence: Two representative official Google Developers community screenshots should be placed after this table: (1) GDG on Campus Manipal University – Jaipur, India and (2) GDG on Campus Delhi Technological University – Delhi, India. Keep the browser address bar visible for verification.

Important: Promotion permission is not publicly stated on these pages. Do not claim that promotion is allowed without chapter/admin confirmation.

Part 3 — Student Community Research

- **GDG on Campus Delhi Technological University**

Content/Observation:

Official Google Developers page verifies the **GDG on Campus Delhi Technological University – Delhi, India** student developer community. The page highlights opportunities to meet developers interested in technology, attend technical talks, and learn new skills through hands-on workshops.

Why It Is Relevant:

This community is relevant for Skill Nexis because its audience includes students and technology-focused learners who may be interested in internships, projects, technical skills and career development.

Promotion Permission:

Not publicly stated — ask the chapter/admin before promoting Skill Nexis.

Source: Google Developers – GDG on Campus Delhi Technological University – Delhi, India

Screenshot Evidence – GDG on Campus Delhi Technological University – Delhi, India: Official Google Developers page verifying the student developer community and its focus on technical talks, technology interests, and hands-on workshops.

- **GDG on Campus Manipal University – Jaipur**

Content/Observation:

Official Google Developers page verifies the **GDG on Campus Manipal University – Jaipur, India** student developer community. The page highlights opportunities to meet developers interested in technology, attend technical talks, and learn new skills through hands-on workshops.

Why It Is Relevant:

This community is relevant for Skill Nexis because its audience includes students and technology-focused learners who may be interested in internships, projects, technical skills and career development.

Promotion Permission:

Not publicly stated — ask the chapter/admin before promoting Skill Nexus.
