Day 6 — Sat	Instagram + LinkedIn+ Facebook	Post 4: How to Write a Resume Recruiters Actually Read + Promo Creative 1: Skill Nexis Internship Programs — Apply Now	Career + Promotional	Carousel + Static creative
Day 7 — Sun	Instagram + LinkedIn + YouTube+ Facebook	Reel 3: Internship Myths vs Reality + Post 5: Which Skill Nexis Track Fits You? + Promo Creative 2: Limited Seats	Educational + Skill Nexis + Promotional	Reel + Carousel + Static creative

2. Posts & Carousels (5)

Monami Hazra

POST 1 · CAROUSEL 5 Skills Every Tech Student Needs Before Their First Internship

Platform: Instagram (6-slide carousel) + LinkedIn (native carousel/PDF)

Pillar: Educational

Format: Carousel — 6 slides

Content breakdown:

- Slide 1 (cover): Bold hook — "5 skills nobody teaches you in class (but every recruiter checks for)."
- Slide 2: Skill 1 — Git & version control basics

- Slide 3: Skill 2 — Communicating technical work in plain English
- Slide 4: Skill 3 — Basic project management (Trello/Notion, deadlines, standups)
- Slide 5: Skill 4 — Reading documentation instead of only watching tutorials
- Slide 6: Skill 5 — Asking for feedback + closing loop slide: "Which one are you working on? Comment below." + Skill Nexis logo/handle

Caption:

Degree? Gpa? Internships expect you to already have these 5 skills — and most students figure that out the hard way.

Save this before your next interview □

Which one do you need to work on most? Tell us in the comments.

Hashtags: #InternshipTips #StudentLife #TechSkills #CareerReadySkills #SkillNexis #CampusToCareer #LearnAndGrow

POST 2 · CAROUSEL The Skills That Aren't Dying Anytime Soon (2026 Edition)

Platform: Instagram (6-slide carousel) + LinkedIn

Pillar: Educational+Internship / Skill Nexis

Format: Carousel — 6 slides

Content breakdown:

- Slide 1 (cover): "AI can write your code. It still can't do these 5 things for you."
- Slide 2: Skill 1 — Prompting & directing AI tools (knowing what to ask, not just how to code)
- Slide 3: Skill 2 — Communicating technical work in plain English to non-technical people
- Slide 4: Skill 3 — Judging AI/tool output critically instead of trusting it blindly
- Slide 5: Skill 4 — Basic project management (deadlines, standups, staying organized without being told)
- Slide 6: Skill 5 — Adaptability — picking up new tools fast, since "the tool" will keep changing + closing slide: "Which one are you working on? Comment below." + Skill Nexis logo/handle

Caption: *"Tools change every year. These 5 skills haven't gone out of date once — and they're exactly what's keeping people employable through every 'AI will replace X' headline. Save this before your next interview. Link in bio to explore open tracks"*

Hashtags: #InternshipLife #SkillNexis #AICTEApproved #StudentInternship #RemoteInternship #FutureSkills #HighDemandSkills2026 #StudentLife #CareerReadySkills #SkillNexis #CampusToCareer #FutureProofYourCareer

POST 3 · CAROUSEL Top 5 Free Tools Every CS/IT Student Should Know

Platform: Instagram (6-slide carousel) + LinkedIn post

Pillar: Educational

Format: Carousel — 6 slides

Content breakdown:

- Slide 1 (cover): "5 free tools that make you look job-ready instantly"
- Slide 2: Notion — organizing projects & notes
- Slide 3: GitHub — showcasing real code, not just class assignments
- Slide 4: Canva — quick, clean presentations for projects/vivas
- Slide 5: Postman — testing APIs (great for anyone touching web/app dev)
- Slide 6: VS Code extensions worth installing + "Save this for later" closing slide

Caption:

You don't need paid courses to look industry-ready. These 5 tools are free, and recruiters notice when you actually use them.

Which one haven't you tried yet? To know more, follow and join our internship programs ..Save + share with a classmate

Hashtags: #StudentTools #FreeResources #TechStudents #CodeNewbie #SkillNexis #ITStudents

POST 4 · CAROUSEL **How to Write a Resume Recruiters Actually Read**

Platform: Instagram (7-slide carousel) + LinkedIn post

Pillar: Career

Format: Carousel — 7 slides, before/after style

Content breakdown:

- Slide 1 (cover): "Your resume has 7 seconds. Here's how to use them."
- Slide 2: Mistake — objective statements nobody reads (cut them)
- Slide 3: Fix — lead with 2–3 quantified project/internship lines
- Slide 4: Mistake — generic skill lists
- Slide 5: Fix — tools + real outcomes ("Built X using Y, reduced Z")
- Slide 6: One-page rule + consistent formatting reminder
- Slide 7: "Want feedback on yours?" + CTA slide

Caption:

We reviewed dozens of student resumes for this internship cycle. The same 4 mistakes showed up again and again.

Fix these before you apply anywhere — not just with us.

Hashtags: #ResumeTips #CareerAdvice #StudentResume #InternshipApplication #SkillNexus #CampusPlacement

CTA: "DM us 'RESUME' for a free structure template" — drives DMs/profile visits and qualifies interested students.

POST 5 · CAROUSEL **Which Skill Nexus Track Fits You?**

Platform: Instagram (5-slide carousel) + LinkedIn post

Pillar: Skill Nexus

Format: Carousel — quiz-style, 5 slides

Content breakdown:

- Slide 1: "Not sure which internship track to pick? Let's find out." (quiz hook)
- Slide 2: "If you enjoy problem-solving + logic → Web/App Development track"
- Slide 3: "If you enjoy storytelling + content → Digital Marketing track"
- Slide 4: "If you enjoy numbers + patterns → Data Analytics track"
- Slide 5: Comparison recap + "Apply for your track — link in bio"

Caption:

Choosing an internship track shouldn't feel like guesswork. Match your strengths, not just what sounds impressive on paper.

Which track are you? Tell us below

Hashtags: #InternshipTracks #DigitalMarketingInternship #CareerPath #SkillNexus #StudentInternship #ChooseYourPath

CTA: "Comment your track + link in bio to apply" — dual CTA for comments and link clicks.

3. Reel Concepts (3)

Monami Hazra

REEL 1 · SHORT-FORM VIDEO **3 Internship Red Flags to Avoid**

Platform: Instagram Reels + LinkedIn video (re-cut, no music, captions on)

Pillar: Career / Educational

Format: 15–20 sec, talking-head or text-overlay style, trending audio (low volume)

Content breakdown:

- Hook (0–2s): "If an internship does THIS, run." (on-screen text + direct eye contact)
- Beat 1 (2–7s): Red flag 1 — asking you to pay for a 'certificate guarantee'
- Beat 2 (7–13s): Red flag 2 — zero mentor contact or feedback
- Beat 3 (13–18s): Red flag 3 — vague, unpaid 'tasks' with no learning outcome
- Close (18–20s): "Skill Nexis is AICTE & MSME approved — here's what to actually look for." + logo end card

Caption:

Not every internship is worth your time. Here's how to spot the ones that aren't — before you waste a month on them. Follow for more honest internship advice

Hashtags: #InternshipRedFlags #StudentAdvice #CareerTips #SkillNexis #InternshipSeason #Reels

REEL 2 · SHORT-FORM VIDEO Rating Internship Excuses

Platform: Instagram Reels

Pillar: Internship / Skill Nexis

Format: 20–25 sec, POV/day-in-life style, relatable trending audio

Content breakdown:

- Hook (0–3s): On-screen text — "Rating internship excuses I've actually heard"
- Beat 1 (3–10s): "I didn't apply because I thought I wasn't 'ready' yet" — rate it 2/10, bad excuse
- Beat 2 (10–17s): "I didn't apply because I don't know how to code" — rate it 0/10, show non-coding tracks exist
- Beat 3 (17–22s): "I didn't apply because I thought it'd be too competitive" — rate it 1/10, mention real acceptance/mentorship support
- Close (22–25s): "Stop finding reasons not to. Apply — link in bio."

Caption: "We've heard every excuse. None of them are actually good enough to skip this."

Everyone's scared before their first internship. Here's the honest version of what week one actually feels like.

Hashtags: #FirstInternship #POV #InternLife #SkillNexis #StudentJourney #CampusToCareer

CTA: "Link in bio to start your first internship" — drives link clicks/leads.

REEL 3 · SHORT-FORM VIDEO Internship Myths vs Reality

Platform: Instagram Reels + LinkedIn video

Pillar: Educational

Format: 20 sec, split-screen "myth" vs "reality" text format

Content breakdown:

- Hook (0–2s): "Myth vs Reality: Internships edition"
- Beat 1: Myth — "You need a perfect resume to even apply." / Reality — "You need to apply and let experience build the resume."
- Beat 2: Myth — "Internships are just unpaid busywork." / Reality — "Good ones give you real projects + mentorship."
- Beat 3: Myth — "Only final-year students get accepted." / Reality — "Most tracks are open from 2nd year onward."
- Close: "Stop waiting for the 'right time.' Apply now — link in bio."

Caption:

You've probably believed at least one of these. Time to fix that. Which myth did you believe? Comment below + Link in bio to apply

Hashtags: #InternshipMyths #StudentTips #CareerReality #SkillNexis #Reels #InternshipAdvice

4. Captions and hashtags *Monami Hazra*

1. Still wondering what skills you need to work on? Here are five in-demand skills that won't leave you unemployed.
2. Placements next year? Acquire these skills to stand out from the crowd.
3. Only have theoretical, outdated syllabus knowledge? Well, that's not enough in 2026 anymore.
4. See what recruiters are actually looking for in freshers.
5. Want to switch to tech from a non-tech background? Easy skillsets that don't require heavy coding — see if any pick your interest.
6. Here's your list of non-heavy-coding tech jobs.
7. Still doing internships just for the certificate? That's not going to cut it in 2026.
8. Confused about what to even put on your resume? Start here.
9. Your syllabus won't tell you this — but recruiters will.
10. Think tech = coding only? These jobs say otherwise.

4.Captions and hashtags (Garvita Chauhan)

Post 1 – In-Demand Skills

Still wondering which skills to build? 📌

Focus on relevant skills that help you learn, solve problems and become job-ready.

CTA: Which skill are you learning right now?

**#SkillNexus #Upskill2026 #JobReady #CareerGrowth #StudentLife
#SkillDevelopment**

Post 2 – Placement Preparation

Placements coming up?

Start early. Build skills, work on projects and prepare with confidence.

CTA: Save this post and start with one skill today.

**#SkillNexus #PlacementSeason #Freshers #CareerPreparation
#JobReady #CareerGoals**

Post 3 – Theory vs Practical

Learn the concept. Practice the skill. Build something.

Academic knowledge becomes more valuable when you know how to apply it.

CTA: Turn one syllabus topic into a project.

**#SkillNexus #PracticalLearning #ProjectBasedLearning #JobReady
#FutureSkills #StudentSkills**

Post 4 – Recruiter Expectations

What do recruiters look for in freshers?

Technical skills + communication + problem-solving + adaptability can make a strong difference.

CTA: Which skill should every fresher develop?

**#SkillNexus #RecruiterTips #FreshersGuide #EmployabilitySkills
#CareerAdvice #JobReady**

Post 5 – Internships Beyond Certificates

An internship is more than a certificate.

Learn. Build. Practice. Gain experience.

Make every internship an opportunity to develop skills and grow.

CTA: Focus on what you can learn from your next internship.

**#SkillNexus #InternshipGoals #PracticalLearning
#ProjectExperience #CareerGrowth #SkillDevelopment**

5 .Task: Promotional Creatives (GARVITA CHAUHAN)

Promotional Creative 1 – Internship + Real Skills

TURN YOUR SKILLS INTO REAL EXPERIENCE

Objective:

To highlight the value of Skill Nexis internships by showcasing practical learning, project experience, industry-relevant skills, and career-focused development for students.

Target Audience:

College students, freshers, and learners looking to gain practical experience.

Key Message:

Students can strengthen their skills and gain practical experience through internship-based learning.

CTA Used:

Start Your Internship Journey

Design Approach:

A clean and modern student-focused design was used with clear benefits, simple icons, and a strong call-to-action to make the creative easy to understand and engaging.

Skill Nexis
Learn. Build. Grow.

Creative 2 – Your Career Starts With the Right Experience

Objective:

To encourage students and freshers to explore Skill Nexis internships and understand the importance of gaining practical experience for career development.

Target Audience:

Students, freshers, and early-career learners.

Key Message:

Don't just learn skills; build practical experience and use those skills to move closer to your career goals.

CTA Used:

Explore Skill Nexis Internships

Design Approach:

A bold and professional design was used with a career-focused message, student visual, highlighted benefits, and a clear call-to-action to attract the target audience.

6. Competitor Learning & Strategy Explanation

(GARVITA CHAUHAN)

The Week 1 competitor and social media research helped identify the content formats and topics that can be used to attract and engage students for Skill Nexus.

Key Learnings from Competitor Research

1. Focus on Practical Learning and Experience

Competitors such as Internshala and Great Learning show the importance of career-focused and practical content. Based on this learning, Skill Nexus content should highlight practical projects, skill development, and real experience rather than only promoting internships.

2. Use Clear and Action-Oriented CTAs

Unstop's content shows that challenges, opportunities, deadlines, and clear calls-to-action can make student-focused content more actionable. Therefore, Skill Nexus posts should use simple and direct CTAs wherever appropriate.

3. Provide Educational Value Before Promotion

Great Learning's approach shows the importance of educational content and structured learning. Skill Nexus can use educational posts, tutorials, tips, and career guidance to build trust before promoting internship opportunities.

4. Create Career and Skill-Focused Content

Simplilearn and Coursera use career, skills, credentials, and career-outcome focused communication. Based on this learning, Skill Nexus should regularly create content around relevant skills, career preparation, project outcomes, and skill-to-career pathways.

Social Media Learning

The Week 1 social media research also showed that successful student-focused posts commonly use relevant opportunities, educational value, career trends, useful insights, and clear actions. For example, Internshala used opportunity-based content, Unstop used a specific university hackathon, Great Learning focused on career education, Simplilearn used AI career trends, and Coursera used research-based job-skill insights.

Strategy Applied in Week 2

Based on these learnings, the Week 2 campaign focuses on:

- **Educational and career-focused content** to provide value to students.

- **Internship and practical experience content** to communicate the benefits of gaining real experience.
- **Project and skill-based messaging** to connect learning with career development.
- **Student-friendly visual content** that is simple, clear, and easy to understand.
- **Clear CTAs** to encourage students to explore internship opportunities.
- **Consistent content themes** that can be developed into recurring social media series.

Overall Strategy

The main strategy is to follow a **value-first approach**: provide useful educational and career content, build student interest and trust, and then connect that interest with relevant Skill Nexis internship opportunities. This approach combines the strongest learnings from competitor research with the needs of the student audience

7. Performance Report

Content was not published during the assignment period, so no performance metrics were recorded. Performance will be tracked after publishing using reach, views, likes, shares, saves, comments, profile visits and link clicks..
